Trainers. Connecting with local Peace
practice. Assistance with your back home
peace activity. Networking with 300 UPA
graduates in 30 countries.**

University of Peace in Africa (UPA) is a social teaching project on concepts and active methods of (re-)building Peace, of preventing violence, of mediation and non-violent conflict management and consensual transformation. By invitation of a local partner, the UPA Campus opens each year in a different country of Africa, in French and English language. UPA is addressing responsible executive staff with a sound experience in Civil Society, in (inter-) religious organisations, in governmental programs or in public military/police forces searching for a methodical quality time for achieving enhanced competence, further personal development and effective pan-African networking.

Next Campus: 15. October to 05 November 2023
